

# Joseph Garberick

I'm a network and security engineer at an MSP, where I design and implement infrastructure solutions, provide advanced technical support, and lead our cybersecurity offerings. My focus is helping businesses improve reliability, security, and operational efficiency through practical technology solutions.

## EXPERIENCE

### Atlas IT, Middlebury, IN — IT Technician

Aug 2024 - Present

- Lead the development and delivery of managed security offerings, including endpoint protection, email security, identity and access management, vulnerability management, and security awareness initiatives.
- Performed network assessments, technology planning, and infrastructure upgrades to improve performance, reliability, and scalability.
- Collaborated with clients to identify business requirements and recommend technology solutions aligned with operational and security objectives.
- Developed technical documentation, standards, and best practices for network deployments and security services.
- Designed, implemented, and supported network infrastructure solutions for multiple client environments, including switching, routing, wireless, VPN, and firewall technologies.

### Sylvan Learning Center, Elkhart, IN — Math Tutor

July 2024 - May 2025

- Provided individualized and small-group instruction for students preparing for the SAT and ACT mathematics sections.
- Taught core mathematical concepts including algebra, geometry, trigonometry, statistics, and problem-solving strategies relevant to standardized testing.
- Instructed students on effective test-taking techniques, time management strategies, and approaches to solving complex problems under timed conditions.
- Tracked student progress and communicated performance updates to students, parents, and center staff.
- Fostered a positive and encouraging learning environment that promoted confidence and academic growth.

## SKILLS

CompTIA A+  
Cisco CCNA  
CompTIA Sec+  
3cx Basic  
Network Engineering  
Cybersecurity  
Incident Response  
Client Support  
Project Leadership

## AWARDS

**AWS DeepRacer National Finalist** 5th place at AWS's student league machine learning competition - National Finals

**Ball State Outstanding Senior** Awarded for my accomplishments in swimming and Academics during the 2023-2024 season

**US Swimming National Finalist** Placed 16th in the 50 breaststroke at the 2023 US World Championship Qualifier

## EDUCATION

### **Ball State University, Muncie, IN — *Bachelors of Science***

AUG 2020 - MAY 2024

**Double Major:** Mathematics and Computer Science

**Major Area:** Mathematics

**Coursework:** Mathematical Modeling, Numerical Analysis, Actuarial Probability and Statistics, Differential Geometry, Topology, Complex Analysis, Real Analysis

**Major Area:** Computer Science conc. Data Analytics and ML

**Coursework:** Data Analytics, Machine Learning, Advanced Programming, Computer Organization and Architecture, Database Management, Networks, Algorithms
